Subject: Updates Solar/Wind Cost Outlooks

Hi All,

Thanks for your input into the solar/wind cost outlooks deck last week. We have incorporated your suggestions into the deck. Specifically, there are now high/low capital cost and energy cost scenarios for each technology type. We also revised the residential rooftop solar rates to reflect a 100% equity financing assumption.

Please review and let us know if you have any further comments.

Thanks.

Dave
