When I hear back from Jeannette I'll draft something for your review. The positioning will be sensitive so I expect that Jordan will want to see it before it's posted.

Headed to NOTL tomorrow and a BBQ w some friends this weekend.

How about you? Getting enough snuggles with Hudson? Hope you get out at a reasonable time today. Enjoy the long weekend!

I've had a moment to consider and I agree with your thoughts – wording should be added to the pages you note below. Did you speak to Jeannette regarding the level of detail required re: variance account and deferral? Are you wanting to draft something or would you like me to do it?

On a more interesting note, any fun plans for the long weekend?

Sandy

Thanks Sandy,

Did we decide not to put anything about FHP on these pages? I just want to understand the rationale <http://www.ieso.ca/en/power-data/price-overview/global-adjustment> and <http://www.ieso.ca/en/learn/electricity-pricing/what-is-global-adjustment> and this backgrounder <http://www.ieso.ca/-/media/files/ieso/document-library/global-adjustment/understanding-global-adjustment.pdf?la=en>

Also – I'd like to better understand what our requirement is in terms of reporting the amount of the variance we're selling to OPG Trust. Do you know? Or shall I follow up with Jeannette? With that, I also want to know if we should be describing our role in administering this, as it will be a significant amount of money. Have you already had these conversations with Settlements?

To include new TOU effective July 1, 2017, as well wording around OFHP has been added.
Please advise if changes are required.

<http://www.ieso.ca/en/learn/electricity-pricing/for-residents-and-small-businesses>

<http://www.ieso.ca/en/power-data/price-overview/time-of-use-rates>

GA modifier and language will be added to Class B pages this afternoon when 1st estimate is posted.

Thanks,
Sandy
