Martin - can you confirm the room for tech brief? And that we'll start at 1?

Thanks,
Kate

Through an analysis of the guidance provided in PSAS, the Deloitte Report concluded that it is appropriate for a public sector entity to select accounting policies that would result in the recognition of the impacts of rate regulation, by analogy to US accounting standards and the related eligibility criteria on the topic. The Deloitte report further concluded that any regulatory assets and liabilities recognized through the appropriate application of these policies would meet the criteria for recognition under PSAS.
