Subject: Re: Draft GBE and control analyses

Folks, I have to bring to everyone's attention that there are 3 other aspects of current IESO legislation that we should note so they do not cause issues later on.

IESO currently needs to have an memorandum of understanding with the gov't, should this need to change
The government can direct the IESO to undertake certain actions, limits?
The government can change the objects of the
IESO

Thanks

Thanks Michel. Kim, to your comment about whether smoothing needs to be considered a service, I agree, I am not sure. Since this is one of the tests for GBE treatment (selling a service), I was thinking that this characterization would be helpful. How important do you think this is Michel?

My only comment is whether we need to characterize the smoothing as a "service".

Hi Michel,

I pulled together the attached table based on your GBE analysis. I would like to insert into the latest version of our presentation. Can you take a look and let me know if this makes sense? In particular take a look at the red text, as those are my additions. Please add or change as needed.

Thanks,
Scott

All,

Please find enclosed the first draft GBE and control analyses for IESO for your review and comments.
