This is a valid point below. Are we considering any incremental resources, either internal or external, in support of this work? In 2017 and beyond? I'd like to have a further discussion on this. Thanks, Lia

Hi Rayhan –

One thing I don't see in the Strategic and Business Planning Alignment document is any reference to the IESO assisting in the implementation of the government's Fair Hydro Plan. Is this because the implementation is expected to be completed in 2017? Even if so, I suspect there will be periodic review and implementation steps required on a go forward basis between 2018-2020. Perhaps this can be incorporated in the row re: the strategic objective of "Work effectively with government to support policy development and IESO's excellence in implementation" on page 7.

Let me know what you think, thanks!

Reena

Subject: RE: Agenda and Materials for Apr 6th BPWG Meeting

Hi all – this is a follow-up to our meeting last week and the email below as a friendly reminder to provide input on the following items by end of this week.

1. 2018 BP Timelines – please refine to include dates and timelines that you are aware of from your respective areas of the business to support the development and completion of the 2018 BP.
2. Strategic and Business Planning Alignment (Including SAC priorities) – please review and provide any feedback on the alignment as this document will help shape the next iteration of developing business unit tactical initiatives as well as potentially helping to support any response to the SAC based on gaps identified.
3. Capital Planning Development – this list includes projects that are already ranked and prioritized by the Project Portfolio Management Team. Some these projects will start in 2018 and could span into 2020. Please insert a new row at the end of the list and include any new initiatives, ensuring it aligns with the IESO's strategic objectives.

Also, please 'check in' any documents that have been 'checked out' on SharePoint so that anyone looking to update the document can access a copy and complete in good time. Any issues with accessing SharePoint, please let me know.

I will be away for the next couple of days however, should there be any questions, please contact Lia. In the case of updating the capital planning document, Anil is also available to answer any questions that may come up.

Thanks,
Rayhan

Subject: Agenda and Materials for Apr 6th BPWG Meeting

Hi all –

The agenda for tomorrow's meeting, as well as the Mar. 27 ELT priorities discussion summary and SAC priorities slide deck are available [SharePoint](#) for your review ahead of tomorrow's meeting.

In addition, available on SharePoint and for discussion tomorrow are the draft 2018 BP timelines (Excel file) and an updated version of the Alignment document that now includes SAC priorities. These documents require further refinement from your respective perspectives and are provided ahead of tomorrow's meeting to initiate discussion. The feedback of the BPWG on both of these documents would be appreciated on or before next week, April 13th.

For Clarkson folks, room 308 has been booked.
