Hi Trisha,

Please find attached a revised Festival Hydro Briefing Note with tracked changes that provides ranking based on CE, spend and progress toward target, as well as some community involvement details. I also provided some clarification that they are on a quarterly reporting frequency, and their progress is only known up to Q4 2016. This means that while it appears as though Festival Hydro is performing under 30% of their target, after Q1 2017 reporting, may be a different story.

I have not been able to get a hold of Mary yet re: press release or some notable projects Terry could make reference to. I found a testimonial for a WWT plant that installed VFDs that is posted to the Save on Energy website:
<https://www.saveonenergy.ca/Business/Testimonials/Stratford-Waste-Water-Treatment-Plant.aspx>

Let me know if you require any further information.

Thanks,
Rouselle

I will look into this and have some points for you latest Monday.

Thanks Trisha,

Rouselle

Thanks Rouselle....Terry will ask if there are any notable Conservation successes from Festival – do you have a few bullet points you can provide? They won the EDA conservation award two years ago – is there something we can highlight around their efforts and activities to engage the community in energy efficiency? Not sure if there is anything SOE related. Also do you know where they currently rank in terms of savings...I think they were ninth in the past? Anything else you can think of would be great.

Trisha

Hi Trisha,

Please find attached an up-to-date Festival Hydro Briefing Note for Terry in preparation for next week's customer event and CDM management meeting in Stratford. The Briefing Note outlines Festival Hydro's historical performance, current CFF progress, and some key issues and discussion questions.

Let me know if you have any questions.

Thanks,
Rouselle
