**Subject:** FYI

Don't be surprised if Tabatha comes knocking at your door sometime soon. I think I mentioned to you a few weeks ago that I had sent her a note to explore opportunities in her group. She and I met this morning to talk about a project related to profiling some of the communities that have received IESO funding, whether to support the development of a community energy plan, a FIT project, a conservation initiative or whatever. She and Mike have already discussed the idea so she's putting together a project plan (Mike didn't seem to think a formal rotation was feasible). If you support the idea of me providing some communications support in this area, the work may also involve stuff related to the LTEP roll-out and/or the implementation plan. Let me know if you have any thoughts. Thanks!

Cheers,

Jane
