Subject: Business Case review: Kitchener-Wilmot Hydro retail pop-up stores
Attachments: IESO CDM EE Cost Effectiveness Tool_KWH_PopUpRetail_Jan17.xlsm; Pop-Up Retail - IESO Conservation Program & Pilot Business Case_KWH_PopU....xlsx

Hello,

Attached is a business case submission from Kitchener-Wilmot Hydro.

It entails creating temporary pop-up retail stores where customers can receive instant discounts for several measures (e.g. LEDs, powerstrips and smart thermostats) and free clotheslines. It also includes new measures that Kitchener-Wilmot explains are not yet available in Canadian stores (i.e. automated vents and blinds).

I will set up a meeting for us to discuss comments next week. Please provide me with your written comments by end of day Monday February 6th (or please advise me ASAP if that date is not feasible).

Kausar, please let me who will be reviewing from EM&V so I can include them in the meeting.

Thanks,
Sura
