**Subject:** SPONSORSHIP REQUEST: Pollution Probe Gala  
**Attachments:** 2017 Pollution Probe Gala Sponsorship Prospectus.pdf

Hey Terry:

**I wanted to reach out and see whether we could interest you/the IESO in attending and/or sponsoring our Gala this year (Nov 21, Royal York.)**

Our theme this year will focus on the important role of Pilot Projects in the innovation spectrum.... We're interested in the 'rubber hitting the road' aspect of pilots, and there's a lot about how to do this kind of project successfully that is very interesting and often glossed over.

I'd love IESO (who I know supports quite a bit of pilot-like activity in the energy/cleantech space) to be there, and help us to celebrate some pretty amazing pilots, which we'll feature with mini-docs and give the room the first-ever chance to pick the winner.

If it's important, a bunch of the usual VIPs are attending, including Ontario Ministers of Energy, Infrastructure, and (we're waiting, but I'm pretty sure) Innovation.

Pollution Probe relies on this Gala to fundraise our capacity funding, which I've learned is basically the mother's milk of ENGO work. SO every little bit helps!!

Hope all's well, and hope to have a chance to actually meet you F2F soon, sorry again for my 'stuck in the elevator' debacle last time, hasn't happened to me since the Sutton Place/John Baird.

Don't hesitate to call me on cell if you have any questions. Our sponsorship prospectus is attached. And FYI, our Platinum sponsorship is still available. ;-)

Kind regards,
