Hi Martine,

We are sending you are comments on the draft Fair Hydro general regulation. Specifically we wanted to point out our proposed language in sections 15 and 16 (IESO deferral and variance account). We have thought through this from a few different angles and think it works but wanted to see whether the OEB had any concerns or noted any potential unintended consequences that we haven't thought about.

We are happy to have a call to discuss if that would help.

Regards,
Michael

Confidential/Solicitor & Client Privileged

June 22, 2017

Good morning, Michael. We are pleased to attach the next consultation draft for the proposed General Regulation which, if approved, would be made under the OFHPA.

Please note that Legislative Counsel, due to drafting practices, has removed some of the definitions. They were creating some confusion. Legislative counsel's intention was to communicate concepts in a more direct fashion, particularly about the relationship between various types of "amounts" and "the period of time" in which they are (or are to be) paid or received.

In many cases the substantive provisions themselves elaborate the principles previously provided for in the definitions.

Please provide us with any comments you may have as soon as you are able, as we're now in the final stages of drafting.

Thank you, Michael and IESO team!

James
