Thanks. I was just speaking with Nimi who was offering to help. Can she help you obtain the paper files so you can focus on the electronic side of the collection?

Okay, good. I believe you said you have access to Kim's emails, correct?

If necessary (i.e. if the search tools don't already collect them) you should also obtain access to Bruce Campbell's, John Rattray's and Susan Nicholson's emails to make sure you can obtain all emails they sent or received relating to Fair Hydro. We will also need to obtain all paper files of Kim, John, Bruce and Susan Nicholson that relate to Fair Hydro and accounting treatment and Public Sector Accounting Standards.

Okay, figured it out—we should be good to go for tomorrow unless we encounter more IT issues.

Krystal installed the application. I'm just trying to figure out where the test export is saved.

Keep me in the loop. If this isn't addressed right away I will escalate to Alex.

Hi there,

I'm following up on my email below. We have an urgent document request from the Select Committee, which will require me to export documents from the Compliance Tool. Per my screenshot below, I am unable to export documents because the eDiscovery Tool needs to be installed on my laptop.

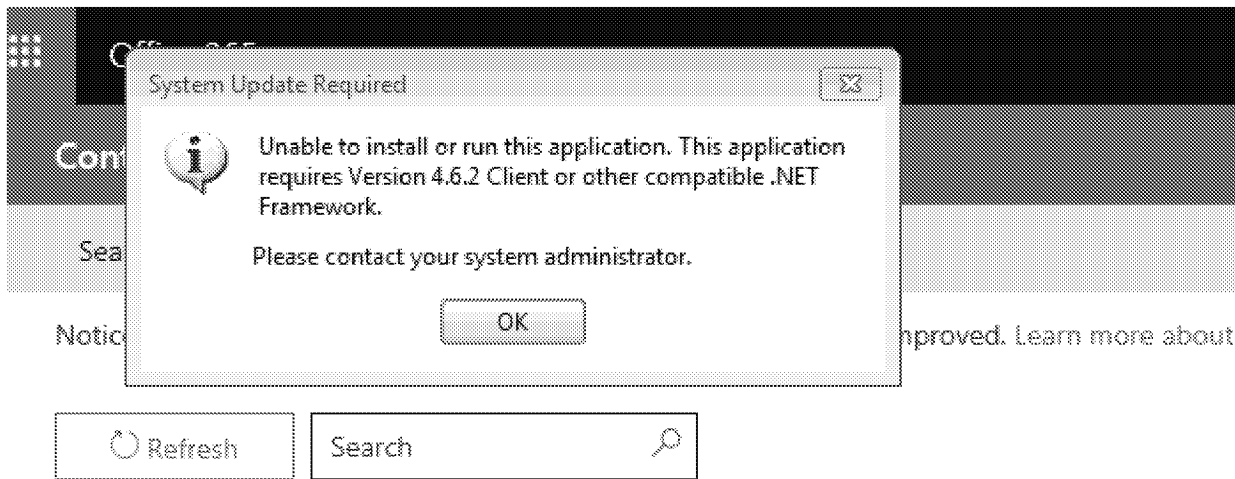

I have copied my supervisor, Michael Boll, should you require his approval.

Thanks,
Anushka

Hello,

I am running a search on Office 365 and I cannot download the results as I am unable to install the Microsoft Office 365 eDiscovery Tool (see image below). Please install this on my laptop at your earliest convenience.
