Kim – I sent you versions to be forwarded. Please use those ones. I don't think we need Michel's document as well but will leave that to you.

I think this looks good, you are just making some final edits? Should we send michel's doc as well?

Kimberly Marshall | VP, Corporate Services & CFO

Kim – enclosed is the updated memo with yours and Susan's comments. I have tracked changes for ease of review.

Also, included are the pro-forma FS that we did for the AC meeting.

The note disclosures will be done up by this time tomorrow.

Susan and I are working through the audit procedures. So far things are going well and I am still confident that we can complete our testing next week.

Matt

A few comments, feel free to disagree

Do we need to say as a result of a new transaction, can we say as a side effect of discussions with government including the provincial controller....or something like that?

I don't love the word perceived here, implies not real, I would say the provincial controller is asking why isn't there some market transparency given that IESO is a counter party to the generator and conservation contracts?

As a result of contemplated new transactions within the Ontario energy market, for which IESO will participate in and a perceived change in financial statement user needs,

the conversation previously around this was the word appropriate instead of supportable, what do you think, I bring this up as Bruce had picked up on the word

a supportable position for either treatment was acceptable

the pros and cons and discussion of unintended consequences looks good

page 3 another supportable

The journal entries are very helpful, Is there an opportunity to add the "mocked" up financial statements. I know you had the balance sheet and income statement impacts?

I suspect they will want to see note disclosure at some point soon

Susan do we need to add any language around we are working with provincial controllers office.....in the loop type words?

*** EXTERNAL email. Please be cautious and evaluate before you click on links, open attachments, or provide credentials. ***

Kim and Susan – I updated this as discussed. I put in pros & cons that I could think of – let me know if you have more to add. I don't see any real unintended consequences of regulatory accounting. There wasn't much to add (i.e., it didn't take too long)

Also, to Carole's question about whether or not the transactions with OPG trust happen before we have this approved, that is unlikely as we should have this wrapped up by the end of this month.

I am available Friday afternoon (on the safe side, after 2:00 as I have a 12:30 doctor appt and while my doctor is great, he has a tendency to be very behind).
