In 2017 and 2018, the IESO is planning to deliver further reductions in operating expenditures and resources as a result of various projects initiated in 2016. Operating expenditures compared to 2016 are decreased by two percent by the end of the planning cycle.

The following table outlines the operating revenues and costs over the business planning cycle.

This is good, do you have something that then shows the C&B total number from this sheet in the application or business plan?
