I've put the "nothing" on the table to start and we'll see where that goes. They may be amenable in this case.

Thanks David – just a quick note – it is all or nothing with the messages we put on the IESO invoices (all 300 invoices get the same message).

Thanks.

Jeannette, John, a status: I'll be discussing this with the Ministry on Monday. So far only commitment is to leverage the prior rationale – whether we drop all language or use modified language is still TBD.

Thanks Andrew.

I'm coming in cold on this so Jeannette and/or Reena, can we talk before I pursue anything? My read is it seems prudent and reasonable to have something in writing to allow us to do this, referencing the prior letter and rationale. Is 10am good?

Hi David,

Can you help advise on this? For context, the government required all bills include language about the 8% rebate and we now include that on all IESO-customer bills. We sought and received an exemption from the Minister so that we could put alternative wording on our bills to reflect the fact that we only have 1 qualifying customer. However we still do note on every IESO customer statement that "eligible consumers" receive the 8% rebate.

There's now a similar issue about potentially including the wording in Jeannette's email below now that the Fair Hydro Plan has passed. I spoke to Jeannette briefly just now and we're thinking this might not be something the IESO wants to include on its bills.

Do we need an amendment if we change the wording on the invoices to contain the message below?

Susan,

I believe we will need an amendment to our to our billing requirement exemption letter attached as it deals with ORECA (8% reduction) only. See slide 7 where it is being suggested what needs to be on bills and as an inserts:

"Ontario's Fair Hydro Plan substantially lowers electricity bills for typical residential consumers. This includes the eight per cent rebate introduced in January 2017, and builds on previous initiatives to deliver broad-based relief on all electricity bills."
