I am struggling with the other memo. I have done an AIS with the Letter to KPMG and their response as attachments. We need to talk because I think this is just an information item. If it turns into a discussion, where do you want it to head and I'm not certain I will be able to answer questions on this level of technicality.

I think including all the items within fair hydro is a good approach and , I think it needs more specific accounting "criterias" maybe from the may memo. Let's talk today
What about the other memo? thx

Still very draft and not yet complete but this is the type of information that I think should go to the Board regarding FHP accounting. If I am off-base, please let me know before I spend too much more time completing.

Maybe simply reworking this to be accounting for fair hydro, as was provided for the may x meeting....

You asked me to prepare a note on the accounting based on the accounting opinion.

I have attached the information that we provided in May as I am not certain that there is anything new to add since it was prepared. What do you think?
