To have access to settlements forms it is linked by participation type.
Our understanding is the current participation type is only linked to Market Participant – MMP.
We will register them as a:
Energy Program Service Provider – EPS
Ontario Fair Hydro
How:
We will make them go through register.org.
We will make them go through non-specific workflow in AMP (banking info, some contacts)
We will do a RFC to add settlements and switch program type.

This is to discuss whether we Register the new MP as a “program participant” or “market participant”.

We need to be able to allow this MP to make form submissions and have association with the new market type “V”

Thanks!
