Subject: Meeting with OEB, IESO and Energy Management Consultants

Hello All:

You may recall earlier in the summer we were trying to put together a meeting of staff from the OEB, the IESO, together with energy management consultants in order to talk about energy consumers in Ontario in the 50KW to 1,000KW size range. The introduction of the Fair Hydro Plan resulted in a sudden re-direction of organizational effort for us, but we would like to come back to the matter.

As you are aware, most of these customers are ineligible for both the Regulated Price Plan and the Industrial Conservation Initiative. Our goal is to learn more about this customer class, and explore ideas for new pricing arrangements for them. We thought a good way to begin learning more about these consumers would be to dialogue with people like you. So I hope you can attend. Please let me know your availability on the dates below (and please have a look at the attached questions for discussion):

Thursday August 31
Friday September 1
Monday September 18, am
Tuesday September 19, am
Wednesday September 20.

Many thanks,
