Subject: A look at Hydro One

To all, Two new ones posted about Hydro One. The first one is all about how Hydro One are supposedly "enhancing consumer satisfaction" in their new privatized state.

Find it here:

The second one looks at how they reputedly influenced Premier Wynne and got her to drop the rates via the Fair Hydro Act and you can find it here:

I will let you decide if they enhanced consumer satisfaction and influenced Premier Wynne but I think if you are a rate paying customer of theirs or a shareholder you might not agree with their claims.
