**Subject:** FW: Briefing Note for EDA Meeting  
**Attachments:** Briefing Note\_EDA Issues for October 23 Meeting - vFINAL.docx

I slightly modified the attached briefing note to reflect the summary in your email. Not sure if you want to resend to Peter or just leave it as submitted?

**Subject:** Briefing Note for EDA Meeting

Peter:

Attached is a briefing note for our meeting with the EDA on Monday. We have also put together some key messaging for you that may help guide your comments at the beginning of the meeting.

Terry

**Key Messages for EDA Meeting**

- At the end of this year we'll be half way through the Conservation First Framework and we are at 48% of the target today. That is a fantastic achievement on the part of LDCs.
- We value the relationship the IESO has with the EDA and LDCs.
- We have a number of discussion forums to help guide existing and future conservation activities with LDCs and the EDA including the Conservation First Implementation Committee (CFIC), working groups and the Mid Term Advisory Committee (EDA is an observer). We also have three Account Managers dedicated to LDC support.
- We want to continue to have open dialogue with LDCs. We have just sent out our annual survey to LDCs so we can keep track of how your views and concerns.
- The IESO is ultimately responsible for the cost and cost effectiveness of the Conservation First Framework.
- The IESO also has responsibility to ensure that across the province there is overall customer satisfaction with conservation, equitable access to programs and that we are delivering conservation in a way that is consistent with government policy.
- We are collectively doing very well on conservation and I believe the relationship has come a long way over the last number of years.
