Hi everyone,

Please find attached a summary of key points of discussion and feedback from yesterday's EDA Conservation Council meeting Nik and I attended. Also attached is the deck Nik presented.

To close the loop, can we agree that the meeting with the EDA Board last year, this meeting with the EDA Conservation Council, and the agreement that the IESO would meet with the councils regularly, constitutes as sufficient response to the formal letter submitted to the EDA to Peter (see attached)?

Thanks,
Rouselle
