Thank you all for a very productive and engaging day last Friday. You should be proud of the progress you are all making and the vast potential for future productive nation-wide collaborations.

I have attached the meeting summary notes for your review, together with Bert's presentation, Johanne's infographic, and the flip chart page. Please feel free to send me your comments and I will update the summary appropriately. As you will see, the notes are grouped in subject areas (i.e. not specifically by flow of meeting) to allow an at-a-glance view on how each province is progressing in specific areas. The Collaboration List is on the front page and Actions on the Last Page.

I also committed to provide a link to Ontario's environmental commissioner conservation report, which is: [ECO 2018 Conservation Vol One Report](#).

I am proud, and it is a pleasure, to assist this group of exceptional leaders. You are helping Canadians grow through beneficial, valuable, change in energy efficiency and climate change mitigation. Thank you for the opportunity, and talk with each of you soon.

Andrew
