Serge,

We have no concerns with the language.

Hi Peter,

Attached is a revised version of the implementation directive to the IESO. This version includes some minor changes to the preamble at the top of page 4, as well as revised language on the hydrogen pilot and the change requested by the IESO to the competitive transmitter selection language.

We are planning to finalize the directives first thing next week. If you have any concerns with the directive language, can you please pass those along tomorrow?

Thanks,
