Subject: Final Details for DSM Policy & Regulation Class this Wed. Mar. 1 6:30 p.m. at One Dundas St. West, 26th Floor Classroom D

Hi Hillary and Julia,

On behalf of Andrew and I, thank you again for agreeing to come and speak to our DSM Policy and Regulation class on the topic of "Community Energy Initiatives" this week.

About the class:

- You'll each have about 15-20 min to speak about your perspectives on the topic and then we'll have 20-25 min for discussion and Q&A.
- We provided the class with an introductory lecture on the topic last week (I shared the slides with each of you in a previous email along with the readings and outline for the class)
- The students will welcome your unique perspectives and insights on the topic and will likely have many questions/comments
- A very casual buffet style meal is served before the class – you are welcome to join us for dinner (please let us know if you will and arrive just after 6:00 p.m.)
- If you plan on using a PPT file for your presentation please send it to me in advance if possible or bring it with you and we will have it loaded on the laptop and ready for your use
 - If you are using PPT please indicate if it is OK with you if we provide the students with a PDF digital copy of the file (students often ask for copies for their records)

About the students:

- There are 33 students registered for the class; the majority will be in the classroom and about 14 participate via web (they can see you and you can see them via screens in the classroom)
- The students are all working professionals (generally mid-career with a couple of executives and a few earlier in their career) and from a range of organizations (Cricket Energy, Suncor, Hydro One, gas utilities, law firms, and etc. as well as a couple of non-energy professionals – e.g. a high school principal).

If you have any questions before class on Wednesday please let me know.

Thank you again,

Katherine
