Hi everyone,

For the next internal LTEP WG meeting, I have attached the updated summary of ministry themes document. Please review the attached in advance of Thursday's meeting, as it will be the focus of that discussion

The document now includes 4 additional themes (below), and notes from the Minister's briefing (in red), specific to the first six themes.

1. Supporting Indigenous Capacity and Leadership
2. Energy Accessibility
3. Smarter Customer, Smarter Grid (Innovation)
4. Supporting Ontario's Climate Change Strategy

Upcoming briefings with the ministry include:

- **Wednesday, February 15** – briefing with Minister to discuss four themes outlined above
- **Thursday, February 16** – briefing with Minister's Office and Deputy Minister's office to discuss theme #11 – Supply and Demand

Following Thursday's briefing, there is one outstanding theme left for discussion – *Bending the Cost Curve*. Meeting details are still TBD.

Please let me know if you have any questions.

Cheers,
Anthony
