Importance: High

Hi team,

Apologies for the delay in getting this out. Attached for your review is a draft deck for the update to ELT on the implementation plan. We are still targeting next week's ELT, given that the ministry will seek final approvals from Cabinet on August 31.

The deck focuses on key risks for the implementation plan, and proposed mitigation/actions. The intent is to get ELT to provide clear direction on accountabilities and responsibilities for the development of the implementation plan, and associated initiatives, which will help to kick off the development of the plan and other identified actions (regular reporting etc.).

Feedback is encouraged by end of day tomorrow, so that the next draft can be circulated on Monday morning for review. We can also use tomorrow's WG meeting to discuss feedback/recommendations.

Please let me know if you have any questions.

Key takeaways from yesterday's meeting/ next steps are below:

- GA will create and circulate a template for the ELT deck; **the update to ELT will be on August 24**. The deck is expected to replicate the feedback received from WG members on the implantation plan discussion guide (deliverable, scope, timing, linkages, prioritization considerations, stakeholder engagement etc.).
- Several items remain outstanding and require further discussions between affected business units – they are:
 - o Scope for the bulk system planning process (item 6)
 - o Scope and timing for the transmission procurement process (item 8)
 - o Deliverable and scope for the review of technical criteria for customer reliability (item 9)
- WG members are asked to map out/prioritize directive items. We have a general sense of how long each item will take, but the next step will be to indicate when each of these initiatives will start/end. This is expected to help inform later conversations on resourcing etc.

We are targeting to send the draft template early next week for comment. A final product is due to ELT two-days in advance of their meeting, on August 22.

Let me know if there is anything I may have missed, or if there are any questions.
