FYI – attached is the draft that was shared for David and Jordan’s review.

The draft might evolve to include information on the implementation plan process, but in terms of LTEP content, that will likely remain unchanged. Hope this helps to inform your update.

Attached for your review is the summary of IESO-specific items in the LTEP. Let me know if further context is required on the Implementation Plan itself/next steps.

Without knowing if this will be posted or only used to inform other comms materials, I mainly focused on summarizing each LTEP chapter.
