Hi there:

You had asked for some time on the ELT agenda this week to provide a forecast update. Unfortunately the agenda is packed, and we will not be able to have a scheduled item on this.

If you'd like to have this raised with ELT before Friday's review of Board materials, we can do something similar to the attached. Nicholas provided a written update, which may be discussed in "other business" if ELT members have questions. (Sorry... there are two priority items coming in from Marcia this week that are taking up the entire agenda)...

If this approach works, let me know. Timing for materials would be the same as always, EOD tomorrow.

Anthy

Ps. While we're on the topic, flagging that there are 15-minutes allotted near the end of the meeting to discuss strat plan updates. Similar to last week, are you interested in joining that discussion?
