

ED Interrogatory #037

Issue Number: 6.5

Issue: Are the test period expenditures related to extended operations for Pickering appropriate?

Interrogatory

Reference:

Reference: "Ongoing contingency planning in case Pickering extended operations does not proceed" Ex. F2-2-3, Attachment 1, Page 10 of 116;

Please provide your best estimate of:

- a) The total amount of electricity (GWhs) that Ontario will be able to import from each of its neighbouring jurisdictions in each year from 2018 to 2024 inclusive; and
- b) The total nameplate capacity (MW) of Ontario's import connections with each of its neighbouring jurisdictions from each year from 2018 to 2024 inclusive (i.e. the sum of the nameplate import capacity of the interties with each jurisdiction).

Please state your assumptions regarding the transmission system reinforcements that the IESO anticipates will be made during that period that will impact Ontario's import capacity.
