

Assessment of Impact of Rule Amendment on Consumers re Prices, Reliability and Quality of Electricity Service

This form is used to document the *IESO's* assessment of the impact of a proposed *market rule amendment* on the interests of consumers with respect to prices and the *reliability* and quality of electricity service. Please complete all parts of this form.

Terms and acronyms used in this Form that are italicized have the meanings ascribed thereto in Chapter 11 of the *Market Rules*.

PART 1 – MARKET RULE INFORMATION

Identification No.:	MR-00420-R00-R01-R02
Title:	R00: Capacity Exports in the IESO-Administered Markets R01: Capacity Exports and Settlements R02: Capacity Exports and Transmitter Outages

PART 2 – ASSESSMENT

The following is the *IESO's* assessment of the impact of the proposed *market rule amendment* on the interests of consumers with respect to prices and the *reliability* and quality of electricity service.

Impact on Prices

None.

Impact on Reliability of Electricity Service

The proposed changes are expected to have a neutral to positive impact on reliability, since:

- The IESO will screen all capacity export requests to ensure that resource adequacy can be expected to be maintained in the planning timeframe,
- Market participants with generation facilities that might otherwise choose to shut down will have the opportunity to monetize capacity not required for Ontario reliability and continue to operate.

Impact on Quality of Electricity Service

None.

Date Assessment Prepared: July 31, 2018
