Subject: Capacity Exports Draft High Level Design for REVIEW
Attachments: Capacity Exports Phase 2 - Internal High Level Design V1 0.docx; CKL-236 Enabling Capacity Exports - Visioning Outcomes Checklist v2_0.docx

Hello,

Attached please find a draft High Level Design (HLD) for Phase 2 of the Enabling Capacity Exports Program for your review. Also attached for your reference is the related Visioning Outcomes Checklist.

The IESO is developing capacity as a tradable product, and full implementation of capacity exports is one of the initial steps in this direction.

This HLD is an internal IESO document which will form the basis of the development of the detailed design. It was developed in consultation with, and reviewed by, subject matter experts. Your comments on this draft HLD will greatly assist with reaching the final design.

Please provide comments by Friday, April 28.

I am happy to make myself available for meetings in advance of April 28 to discuss any questions/concerns that you might have, so please feel free to ask.

Regards,
