Interesting. This just came in for our review. We'll have some more time to consider our feedback now.

FYI. We haven't been asked for any materials as I understood the policy group was developing the deck(s) and will circulate when ready.

Mary

Hi All,

This meeting is being pushed out until November. So you can have more time to work on the materials requested below. Please have them back to me November 1st.

Thanks,
Denna

Hi all,

Following up re: the timeline here – the briefing will be set to occur on October 18th at 12pm and invitations from my calendar will follow shortly. Please ensure that all the materials track up for Thursday, October 13th EOD.

Thanks,
Denna

Subject: Foundational Briefing - Shirlee Engel (Global News) - Electricity Rates
Importance: High

Hi all,

As discussed, MO would like policy divisions to work with agency reps to put together a 2 hour foundational briefing deck on how electricity prices are determined in Ontario for reporter Shirley Engel from Global News. Basically covering how rates are determined, why they are what they are, GA, including transmission and distribution, all the technicalities that Shirley has gotten wrong in her recent articles.

Management is suggesting that there be two decks, one that covers off Industrial Pricing and GA and one covering Residential, RPP and distribution.

Please Note:

- MO would like Shirley to have access to agency and policy reps at the briefing.
- They would like to do the briefing at some point within the next week and a half.

Can agency and policy staff work together on putting these decks together and also get back to me on a date (within MOs timeline) that would work for your reps for the briefing by end of day?

Also, if needed, we can set up a teleconference phone call with all parties to discuss.

Thanks for your help on this and don't hesitate to call with any questions.
