Hi Jordan – how's this? I've included an overview of Government Affairs slide as per Julia's request and expanded on the presentation I gave to include a couple slides about climate change policy, to elaborate on the Ontario Fair Hydro Plan and other party platforms, and to add a slide about the 2018 election.

Hey – any chance you can pull that presentation together for Monday/early Tuesday?

Subject: Team Learning Session re: Changing Policy Landscape
When: April 26, 2017 10:00 AM-11:00 AM (UTC-05:00) Eastern Time (US & Canada).
Where: TBD

I'm hoping a meeting room frees up for next Wednesday.

Jordan,

Further to our conversation, Internal Audit, Business Analysis and ERM are collaborating on a series of team learning sessions for 2017. The purpose of these sessions is to increase our knowledge and understanding of the IESO's business, as well as key changes and future trends impacting in the sector. These sessions are 1 hour in length. We identify a topic and invite a guest speaker from the company to address the topics. Typically, we aim for half presentation and half discussion.

With the new LTP expected in 2017 and Climate change policy rolling out, there may be many changes in the Electricity sector policy landscape. We were hoping that you could attend a session in April 2017 to discuss the changing policy landscape. It would be great if you could provide an overview of policy landscape, what it means for the sector and the IESO, and what if any, risks and opportunities the policy raises for the IESO. It would also be great if you could speak to what the GR team does.

Sabeela will work with you to identify a date and time.

Best
Julia
