Hi Mary,

I'm hoping to trim it down a bit (I'll leave the judgement around that to you), but also add in some slides on Market Renewal. I'd like to make sure we cover that topic over 5 or 6 slides. Market renewal is the only topic that's been suggested we cover.

I have also attached a couple more decks that you might want to pull from:

- Presentation to the Probus Club (these are the most up to date slides with facts and figures)
- Presentation to the OEFC Board (this includes some market renewal slides)

The other piece that I'm still waiting on is the summary from John on Justin's articles related to the energy sector, or the types of articles he's written. I don't have a really good sense of his understanding of the sector, areas he's focused on, so this piece would be very helpful.

Cheers,

Jordan

No, sorry, this has not been done but we can handle in the am. In what way do you want it scaled back -- shorter?

Mary

One item I forgot to discuss today (which can wait until tomorrow morning) - has this deck been updated for the meeting with Justin next Monday? I need to share something with the Ministry tomorrow.

Mary/David,

Can you remind me who from Ops will be doing Justin Giovanetti's control room tour? I need to get back to the MO today with some details, and we should probably finalize the deck by this Wednesday to send along to them, as they want to see it in advance. I have attached one that we did for the MO in July, which can be used as a base for this one. It probably needs to be scaled back a bit.

Chuck – Terry just backed out of the tour itself, so are you available that day to attend with me instead?

Cheers,

Jordan
