Tabatha,

We expect to post the Implementation Plan tomorrow, so your deck can incorporate the latest information. I have attached a deck I will be presenting tomorrow at SAC that you can pull from if you want. Also looping in our engagement folks in case they have any views as well.

Subject: Hydro One First Nations Day

Hi John and Jordan

Last week I copied you on an email with respect to a last minute request for us to speak at Hydro One's First Nations Day.

I have attached the deck that I am planning to present. The slides and information are pulled from the Regional sessions we had in the fall and the conservation and support program public webinars.

There was a specific request to speak about LTEP and our plans moving forward. Understanding that the Implementation is yet to be approved I have included the same slides that we used in the fall to speak to our intentions. I don't plan to focus on these slides, but more on what we heard in our engagements on the first LTEP item. Let me know if you have any concerns or questions.

Tabatha
