

[Policy Considerations]

Objective

- Establish policy topics to be addressed in briefing materials
- Provide background and IESO perspectives on each topic

Summary of Key Topics

Sectoral structural change	Market renewal
Conservation	Electricity pricing – industrial
Cap and trade	Electricity pricing – non-industrial
Nuclear	Long term planning
Contracts	Local planning for renewable projects
Grid modernization	Grid modernization
Interjurisdictional trade	Net metering

Topic:

Background:

- [Brief overview of topic: what it is, how it came to be, why it is relevant]

Key issues:

- [Why is the topic relevant? What are the issues we're seeing that could require/warrant intervention/change? What are the unknowns?]
- [positions of key stakeholders]

Next steps

- Further development of options
- Monitor discussion on topics outside of IESO
- Develop briefing materials
