Andrew/George – please find attached our updated assessment of solar PV/wind cost outlooks.

We've addressed the comments provided at our meeting in December.

Next steps: We've scheduled a meeting with the folks below from across the company to discuss. The deck has been shared. David has already been collaborating with some of the folks below in developing the updated outlooks so hopefully no big surprises. Following the meeting with this crowd, we will be in a position to share with Len.

Great work Dave for putting together! Sharing with the rest of Resource Integration 1 & 2 as well. Feel free to reach out to Dave if you have any questions.

Bashir
