Hi Lorraine,

Attached are 4 documents for circulation prior to Friday's ELT. The first 3 are related to the Market Renewal benefits case agenda item:

- 1) A briefing note providing relevant context for the discussion.
- 2) A presentation (IESO ELT Benefits Case) that will be used at the meeting to discuss the initial findings of the benefits case.
- 3) A presentation that offers additional detail on the methodology informing the initial findings.

The final document is for the Market Renewal resourcing discussion.

Could you please share these with ELT?

Thanks for your help,

Brennan
