Subject: REVIEW January 5: ECO Report - Information Request - Combined Response

All, thanks for your work to compile the draft responses to the ECO information request. The combined responses received are in the attached documents. The ECO office has been considerate that the breadth of the information request is expensive and beyond usual, but they do require responses very soon. So, **by January 5**, I'm asking for:

- Review of each of the sections assigned by BU/SME (or your delegate) to confirm the response is accurate, in particular where a change/addition was tracked, confirm that the source is valid and most recent, and confirm that the information is public (i.e. not confidential per IESO classification)
- Review, confirmation and/or and update for the yellow highlighted items

Please track or otherwise identify changes so they can be readily identified and compiled.

A couple notes:

- The "Issue MGMT" column is for internal reference for preparing communications responses
- When the responses are sent to the ECO, they table will not include the BU, SME, Public Source or Issues MGMT columns

Many thanks,
David
