Subject: Request to review our draft report on your presentation at APPrO 2017

Peter Gregg,
IESO - Independent Electricity System Operator

Dear Peter,

Once again, we would like to thank you for your presentation at the APPrO 2017 conference last November.

We are pleased to share with you now the first complete draft of the conference proceedings, for your review and comment. We expect to finalize the material for publication in the next month or two, in the form of an online publication which will be made available to all conference delegates.

Please review the summary we have prepared on your presentation and let us know if you feel any changes are necessary. There is no need to review any part of the document other than the passages that refer directly to you or your organization. However we have provided the entire document so you can see the context. We would like to publish the proceedings while the material is still timely, so we ask that you provide any feedback or comment to us as soon as possible, or at the latest, by Friday, April 6.

If we have not heard from you by April 7, we will assume that you have no objection to publication of the material as it presently stands.

A few words of advice while you are reviewing the attached document:

1. We recommend that you use the search function to locate all references to your name and to your

organization in the attached file. This is because the references to you in the text may occur outside the report on your presentation *per se*. Our reporters in some cases identified questioners or participants by name in the open question-and-answer periods that took place after the formal presentations.

2. It is fine with us if you would like to propose substantial edits to the report. We are trying to produce the most meaningful and accurate finished product possible. If you wish to change attributions or correct inappropriate inferences, we are fully prepared to consider such requests.

3. We have posted electronic copies of all the presentations we have available in a password-protected page on-line. If you would like us to post an updated version of your presentation material, or if you haven't yet provided us electronic copy, we would be pleased to receive such information from you.

4. We are treating the attached draft as confidential, precisely because it has not yet received the approval from speakers. Therefore we ask that you also treat the attached material as confidential and please do not re-circulate it outside the small group of people necessary to make the revisions and approvals at your end.

5. Please note that, in a small number of places, there are editorial queries, highlighted in yellow, where a point was unclear, and the editor has requested clarification.

6. Please turn on "change-tracking" in your word processor if you are planning to return edited electronic copy to us. This will make the integration of your edits much more effective.

To see the speaker presentations and background papers, please use the APPrO 2017 web app at this location: <https://appro.org/app/>
(Username and password are required. To have a new auto login link emailed to you in real-time, select "Forgot login" at the bottom left of the link above.) Once you are logged into the app, select the "Documents" link or use this URL: <https://appro.org/app/documents.html>

Background information on the 2017 conference, including the final program, can be found on our website at: <https://conference.appro.org/conference2017>

The final version of the proceedings will be in PDF format, in a magazine-like publication, including photos, graphics and text based on the attached session summaries, similar to previous years. The proceedings will be distributed online, along with a copy of the electronic presentations from speakers. The format will be PowerPoint files converted to PDF in most cases. Please let us know if you would prefer us to change the format, or if you do not want your presentation file distributed along with the proceedings.

If you would prefer to have a hard-copy of the draft proceedings to review, we would be happy to provide it by fax, mail or courier. Please let us know your preference.

I would be happy to answer any questions you may have on the above. Once again, many thanks for your contribution to APPrO 2017 and we hope to see you this year at APPrO 2018 !

Jake Brooks
