Subject: LTEP Modelling Question
Attachments: 2017 LTEP Presentation 20170519_430PM.PPTX

Hi Anthy,

The Deputy had a request after reviewing the attached deck for the modelling meeting this afternoon. He is interested in seeing a breakdown of what is driving costs (and corresponding bill impacts) for the different cases by generation, transmission, distribution, conservation, etc.

Is it possible to get the data behind these graphics broken down by the elements above? The Deputy is interested in seeing the data as soon as possible this week.

Let me know if you have any questions.

Thanks,
Hillary
