

Agenda Item - Summary

Date of Meeting: August 29, 2017

Agenda Item: Metering Compliance

Strategic Priority: Providing value in all our services and products.

Executive Summary: To ensure that metering obligations are carried out in accordance with the market rules, the IESO relies on the following four processes to monitor, identify and address compliance issues: Metering Service Providers (MSP) Performance Standards and Reporting, Metering Audits, Conformance Monitoring and Compliance Enforcement. This memo provides an overview of the various business processes and controls that are in place to monitor and assess compliance of metering related obligations in the IESO administered markets.

Significant Issues:¹ None.

Decision being Sought: None

Attachments: Memo titled Metering Compliance

¹ Consider contentious issues and significant risks.
