Attached are the presentations that have been provided to the ministry following September 21, 2016, to September 1, 2017.

We may need to meet to discuss approach. While all of the presentations are relevant to Quebec, some are on the updated intertie report and are not on the HQ deal signed in 2016.

I would imagine that quite a bit will need to be redacted as we are still engaged in conversations with HQ. Again, it may be helpful to meet on this.

Anthony

Crystal – All presentations made to the ministry went through GR (either Jordan or Anthony). I defer to them and whatever they provide are the responsive set. Thx George

Hi all,

I am just following up on this request. Are there any other presentations made to the Ministry of Energy besides the September 21 presentation about the Quebec Hydro deal? If so, please forward them to my attention ASAP. If we do not have any other presentations, besides the September 21 one, please send me an email indicating as much.

If you have any questions, please let me know.

Thank you,

Crystal Pritchard | Freedom of Information Coordinator

Crystal- I am ok with the redactions shown in red boxes

The document attached to the request pertains to the existing contracts as does the Sept update - I assume the requestor is asking for any more recent material related just to those contracts.

Anthy – Do you have the finals of the presentations on the existing contracts we have made since last fall ?

George, Jordan and Darren,

Response required by end of day Monday September 18, 2017.

We received an FOI request (attached) for any updated or subsequent presentations made to the Ministry of Energy with respect to the presentation entitled "Update: Quebec-Ontario Agreement" dated March 23, 2016. In FOI request

2016-080 we were given the September 21, 2016 presentation, also attached. Are there any other presentations, before or after the September presentation? If so, please provide these presentations to me while also indicating which portions contain sensitive information that should be redacted. Should we provide third party notice to Hydro Quebec before disclosing these presentations?

The September presentation is marked up in accordance with your response to request 2016-080, please confirm first whether these redactions are still applicable, and second whether any other redactions are required.

If you have any questions, please let me know.

Thanks,

Crystal Pritchard | Freedom of Information Coordinator
