Subject: Technical briefing information

Andrew and Bashir,

Further information on Thursday's technical briefing is included below and attached.

The event is expected to take place at MacDonald Block on Thursday morning, with registration beginning at 8:30 a.m. The Ministry will have two rooms, one for media and another with stakeholders, and have asked that an IESO representative be in each room. Andrew, you will be in the media room, and Bashir, you will be in the stakeholder room. I will also be in attendance.

The media event will kick-off first at 9:00 a.m., with a 20-minute overview of the LTEP (presented by the DM and the ADMs), followed by a 20-minute Q+A session. This session will be live-streamed to the stakeholder room. The IESO has been asked to sit on the panel in the media room to address any questions that may be specific to the modelling. All other questions will be answered by the DM, or the ADMs.

Following the media session, the panel will leave and will join the stakeholder room for a 30-minute question period.

I have attached the final copies of the LTEP and the IESO's Implementation Directive for your reference (please limit further distribution). We are in the process of developing Q+As and Key Messages that we'll soon share with you, too.

Please let me know if you have any questions.

Thank you,

Anthy
