Kim,

By way of background, I am the Country Head for Fitch Ratings in Canada. Fitch continues to grow its presence in Canada across all sectors and was recently added to the FTSE-TMX Bond index and is now in all major investor guidelines. We have also been increasing our presence in the power and utility sector (see attached) and have been mandated recently to rate a project that has required an internal rating of IESO by Fitch. Our analyst may have already been in touch with you through the bankers.

I was wondering if you might be available for a brief introduction meeting over the coming days/ weeks in order to update you on our progress and activities in Canada. We are coincidently located in the same building at 120 Adelaide.

Regards,

Andrew
