> All - Please find attached the draft "Intergenerational Fairness in Hydro Rates Act, 2017". A
tremendous amount of work has gone into getting to this draft and much more work is required to get this
ready for the House. The goal of sharing this document now is to further the process we have engaged in
over the last weeks. In the attached, we have included notes to try to address where the drafting is not
yet consistent with our thinking. These notes are neither comprehensive nor complete. They are intended
only as flags and as colour to the draft. We have not forgotten the comments that you have already
provided and we are continuing to working through the translation of the commercial terms we have been
discussing into legislative language.
>
> For ease of reference, included with the draft bill are the partially updated Blakes' summary, a chart
that attempts links the articles in that document to the sections of the bill (which is imperfectly
numbered at best) and excerpts from the Electricity Act and the Ontario Energy Board Act, related to the
consequential amendments.
>
> In your review, please focus on the broad stroke concepts, rather than the minutia, and keep in mind
the cascade of instruments that will be required - legislation first, then regulations and finally
commercial agreements. We look forward to discussing the broader concepts on Monday
