Here are some comments from me in the attached. Ken I know you were ok with the earlier version - I've just added a couple of questions and a bit of info as well as removing a couple of duplicates at the end.

A few things:

I asked the Energy comms team about handing out the chart that explains How this works. They said they'd ask around and I haven't heard back but based on our discussion I'd assume we won't hand it out.

I also asked whether they had issued any further financial details or the accounting letters and they didn't think anything further had/would come out before Tuesday. However the FAO report is out Wed and has lots of financial data, charts etc. I've included a high level answer on how much the government is investing as I haven't heard back on that but I can call Andrew directly to get his thoughts.

Carlo, if you're reading this on your phone you won't be able to read the comments Ted's included. The two questions he's assigned you to write answers for (based on Mitch's feedback on you doing a great job on these on Wed) were the questions on appetite for this and interest rates.

Thanks

Subject: Fair Hydro Act Lyash Remarks.docx

Evening

Attached are draft remarks and QAs. With only three minutes to ask questions, each party will be challenged to ask all the questions they want. So, based on input I got today from two of the parties I sectioned off some questions I think each party will ask. Carlo is going to provide some input on some Qs that I've flagged here.

I've not heard from the NDP on this, but may get a reply over the weekend so will update as needed.

Please provide me comments and feedback and I will prepare a final version for Tues.
