The following correspondence is sent on behalf of Carlo Crozzoli, SVP Corporate Business Development & Strategy:

To: OPG Board of Directors

On October 26, 2017, Ontario's Minister of Energy Glenn Thibeault released the government's 2017 Long Term Energy Plan (LTEP), "Delivering Fairness and Choice," which provides a road map for the province's energy system over the next 20 years. The 2017 LTEP focuses on the affordability and reliability of a clean energy supply.

There is a lot of positive news for OPG in this report as it focuses on many of our key projects and initiatives and recognizes the importance of maximizing existing assets. Attached is a short summary of LTEP highlights. Further discussion on the implications for OPG of the 2017 LTEP is scheduled for the November 9th Board meeting.

You can read the full report at [2017 Long-Term Energy Plan \(LTEP\)](#). Also attached are the government's Press Release and Backgrounder.
