Thanks Neil, that's good to know.

And yes if you could send the note on RPP pressures, and also if you have anything on the feedback that was given to MOI on the NG expansion file, that would be most helpful and appreciated.

Thanks,
 Matt

Subject: triple-R P

Matt,

Further to our discussion today,

Seasonal class is a live proceeding right now and the panel is deciding on timelines for implementation as part of the decision.

However, what I can tell you is that the Regulation for triple-R P (link below) defines residential premises as:

“a dwelling occupied as a residence continuously for at least eight months of the year and, where the residential premises is located on a farm, includes other farm premises associated with the residential electricity meter;”

So a second residence does not qualify for triple-R P. Only a primary residence.

--

As an aside, would it be helpful if I sent you the page on RPP pressures for May 1 that we distributed at one of the meetings two weeks ago?
