Subject: Information for Ministry

Hi Neil,

Please find attached a list of LDCs for which the updated pole attachment charge applies. We have highlighted the LDCs that identified that more than 50% of their service territory was rural through reporting to the OEB. We have also noted the eight LDCs that qualified for Distribution Rate Funding (Atikokan, InnPower, Chapleau, Sioux Lookout, Northern Ontario Wires, Hydro One Networks, Lakeland Power Distribution, Algoma Power). The Ministry can refer to the IESO's map to see the specific location of these LDCs. As well, the [IESO website](#) describes the specific regions that are served by each distributor, in case that is helpful.

Thanks,
Nancy
