Subject: bad link

Sorry to bother. I know you've got other stuff cooking.

At the bottom of the Ministry site:

https://www.ontario.ca/page/ontarios-fair-hydro-plan?_ga=2.40004066.1721267199.1494529287-1793549284.1460139068

under the "saveONenergy" title near the bottom of the page, the last hyper-link to "call your local utility" takes the user to the OEB bill calculator page. Not sure that's where you want people to land.

Maybe here instead?

<https://www.oeb.ca/utility-performance-and-monitoring/electricity-utility-performance-dashboard>

Hope the rest of the day goes smoothly
Neil
